

Dear Sirs of Ma'am                    I have been a XM listner for 3 years now. I am a salesman that has an expanded territory. When I listen to XM its just what I listen for, with regular radio, yousignal gets lost after a while and even the only station you may get is a PBS station. Thats fine for some people and listening to multitudes of commercials on regular radio I suppose is fine ,for some people. I chose to subscribe to XM so I dont have to worry about finding a radio station I like and all the commercials GIVE ME A BREAK !

PLease, reject NAB's petition 04-160 , do the right thing.
